DRIVING INNOVATION

The New 4th Generation
PASSENGER APP

Gain More Customers

Provide increasingly app-savvy consumers with a new way to book, making them more likely to book with you in today's competitive market.
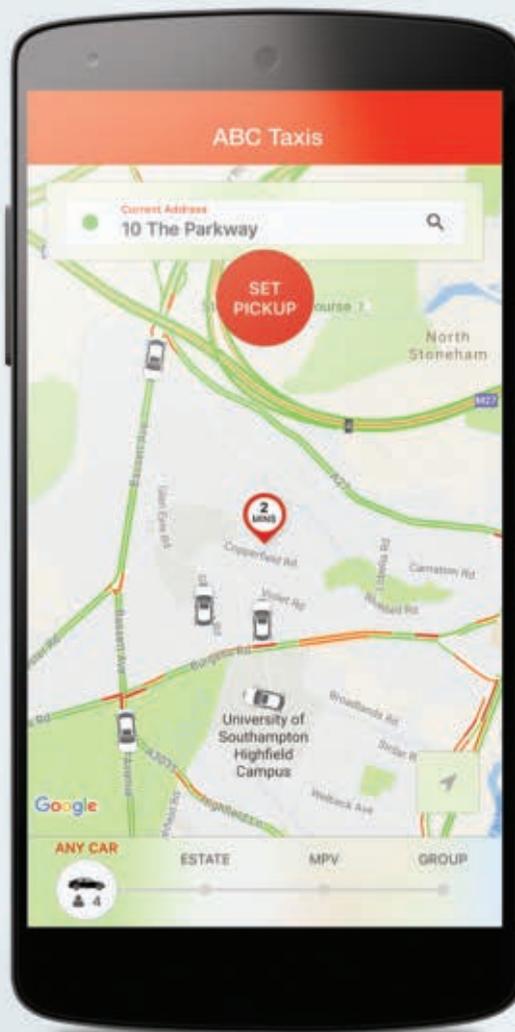

Improve Customer Loyalty

Setting new standards in usability, the Passenger App provides customers with an experience they'll want again and again.

Raise Customer Satisfaction

Powerful reports allow you to predict demand and therefore make intelligent decisions about moving vehicles to where the work is. Watch your ETAs reduce and customer satisfaction increase.

Integrated With Ghost

Jobs received via the Passenger App are automatically booked and dispatched to drivers via your Ghost booking and dispatch system.

Fully White Label

Completely branded with your own branding. You also have the option to publish the app under your own app store account.

Supports All Forms of Electronic Payment

Credit card, debit card, PayPal account or corporate accounts are all pre-configured into the app to make payments easier. And, of course, there's always cash!

Bring your taxi company to the masses with the stunning new Passenger App from Autocab. Autocab's 4th generation Android and iPhone app is the most advanced taxi booking app on the market and has already been tested in hundreds of private hire companies, making it the most successfully deployed passenger app available.

Booking Features

Vehicle Selection Slider
Choose the type and size of vehicle you want.

Car Tracking
Once booked, the user can track their taxi's progress in real time and get constant updates. This reduces 'Where is my car?' calls to the office.

Your Car Is Outside
An in-app notification or SMS will tell the passenger their vehicle ETA, vehicle description, driver's details and photograph.
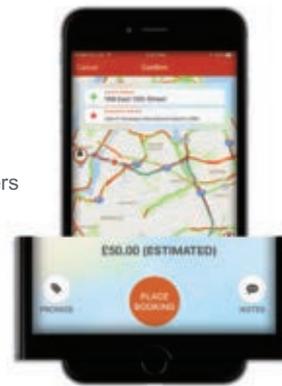

Feedback
Rate your experience once the ride is over. Passengers can use the app to rate their driver and overall experience.

Promo Codes Help You Generate Demand
Provide passengers with discounts and special offers to increase bookings and customer loyalty.

Price and Payment
Your system will automatically generate the right price and provide various payment options.

# Admin Panel Features

Powerful Admin Panel
Customise your app and user experience on the fly. Change branding, icons, offers and many other features right in your web browser.

Heat Map
Shows app downloads and bookings so you can see where your marketing is working and where the demand is.

Single and group reports
Comprehensive reports let you visualise how your app is performing and make changes where necessary.

White Label Branding

▶ Unlimited interfaces available for you to configure to your unique brand identity.
